Each group had foreign teachers.

And we had a speech about our teachers' home countries.

We went to Nagano.

We formed groups and danced together with the foreigners.

They introduced delicious foods from their countries in English.

Dancing was embarrassing but fun.

I was scared that I might make a mistake in my presentation, but it was fun.

my class was Maibara-do. It was  
difficult and interesting.

Also some clubs joined this  
contest.

Sometimes, we didn't have a nice  
time in the practice time. But  
getting over it brought us closer  
together.

Chorus concert

In fall, We had a chorus contest.

Every student practiced songs  
and fought against each class.

Our class sang the song "変わらな

# Little Teacher

We taught elementary school students to study.

We acted as teachers and led the class.

It was difficult to teach them.

But, I was glad they understood.

They were very cute and smiling.

So, I smiled too.

Through this experience, I thought that teaching is difficult.
